

ScreenAdvait

Employee Desktop Monitoring Solution

Complete setup guide for your organization.

Automatic, invisible desktop screenshots — fully managed from your web portal.

What is ScreenAdvait?

A simple tool that automatically takes screenshots of your employees' computers and stores them securely for you to review anytime.

Desktop App

A small app installed on each employee's computer. It runs silently in the background — employees won't see it.

Auto Screenshots

The app automatically captures the employee's screen at intervals you choose (every 5, 15, or 30 minutes).

Web Portal

View all captured screenshots from anywhere using your secure web dashboard. No software needed — just a browser.

HOW IT WORKS

Simple 4-Step Process

Getting started takes just a few minutes.

1

Login to Web Portal

Open your browser and go to the ScreenAdvait portal. Login with your company admin credentials.

2

Add Employees

Create employees in the portal. Each employee gets a unique username, password, and license key.

3

Install Desktop App

Download the app from the portal and install it on each employee's computer. Login once with their credentials.

4

Monitor & Review

Screenshots start appearing on your portal automatically. Review them anytime, from anywhere.

STEP 1

Login to Your Web Portal

Access your company's monitoring dashboard from any browser.

1

Open the Portal Link

Open your web browser (Chrome, Edge, Firefox) and go to:

<https://screen.advaitdigital.co.in>

2

Enter Your Login Credentials

Type in your

Company Admin Username

and

Password

(provided by ScreenAdvait team).

3

Click "Sign In"

You will see your company dashboard with all monitoring features.

STEP 2

Create Employees

Add your team members who will be monitored.

1

Go to "Employees & Keys" tab

Click the "Employees & Keys" tab on the left sidebar of your dashboard.

2

Click "+ New Employee"

Fill in the employee's

Full Name

,

Email

,

Username

, and set a

Password

(minimum 6 characters).

3

Click "Create"

The employee will be added to your list. Repeat for each team member.

Tip: Keep the username and password handy — you'll need them to login on the employee's computer.

STEP 3

Generate License Keys

Each employee needs a unique license key to activate the desktop app.

1

Find the Employee in the Table

In the "Employees & Keys" tab, locate the employee you just created.

2

Click "Generate Key"

A unique license key (like `ATS-XXXX-XXXX-XXXX-XXXX`) will be created.

3

Copy the License Key

Click on the key to copy it. You'll need this key when setting up the desktop app.

Important: Each license key works on only **1 device**. You need a separate key for each employee.

STEP 4

Download the Desktop App

Download the installer from your web portal.

1

Click "Download Desktop App"

On the login page of the portal, you'll see a download button. Click it to download the installer.

2

Save the File

The file

ScreenAdvait-Enterprise-Desktop-Setup.exe

will be saved to your Downloads folder.

Windows Defender / Antivirus Warning: Your browser or Windows may show a security warning. This is normal for new enterprise software. See the next slides for how to allow the app safely.

If Chrome Blocks the Download

Chrome may show "Virus detected" or "Failed — Blocked". This is a false alarm.

1

Open Chrome Downloads Page

Press

Ctrl + J

or type

chrome://downloads

in the address bar.

2

Find the Blocked File

Look for "ScreenAdvait-Enterprise-Desktop-Setup" with a "Blocked" or "Virus detected" label.

3

Click "Keep" or "Keep dangerous file"

Click the option to keep the file. If prompted again, confirm by clicking "Keep anyway".

Why? The app captures screenshots which looks similar to monitoring tools. Chrome is cautious with new apps. The app is 100% safe.

If Windows Blocks the Installer

"Operation did not complete because the file contains a virus." — This is a false alarm.

1

Open Windows Security

Press the

Windows key

, type

"Windows Security"

, and open it.

2

Go to Protection History

Click

"Virus & threat protection"

→ click

"Protection history"

.

3

Find & Allow the File

Find "ScreenAdvait" entry → click

"Actions"

→ select

"Allow on device"

.

4

Run the Installer Again

Double-click the installer. It will now install successfully without any warnings.

 ALTERNATIVE METHOD

Add Exclusion Before Installing

If the above steps don't work, add an exclusion first.

1

Open Windows Security

Press the Windows key → type "Windows Security" → open it.

2

Go to Exclusions

Click "Virus & threat protection" → "Manage settings" → scroll to "Exclusions" → "Add or remove exclusions".

3

Add the Installer File

Click "+ Add an exclusion" → choose "File" → select the ScreenAdvait-Enterprise-Desktop-Setup.exe file.

4

Run the Installer

Now double-click the installer. It will run without being blocked.

This is a one-time step. Once the app is installed, it runs without any further issues.

STEP 5

Install & Login on Employee's PC

Setup takes less than 2 minutes per computer.

1

Run the Installer

Double-click ScreenAdvait-Enterprise-Desktop-Setup.exe. Follow the steps (Next → Install → Finish).

2

App Opens Automatically

After installation, the ScreenAdvait app will open showing a login screen.

3

Enter Employee Credentials

Type in the employee's

Username

,

Password

, and

License Key

from the portal.

4

Click "Login"

The app will connect to the server and start capturing screenshots automatically.

The App Becomes Invisible

After the first login, the app goes fully hidden.

What Employees Will NOT See

- ✗ No icon on the Desktop
- ✗ No icon on the Windows Taskbar
- ✗ No icon near the clock (System Tray)
- ✗ No popup or notification
- ✗ No app window visible

What the App WILL Do

- ✓ Run silently in the background
- ✓ Start automatically when PC turns on
- ✓ Capture screenshots at your set interval
- ✓ Upload screenshots to the cloud
- ✓ Send heartbeat to show "Active" status

Secret Shortcut (Admin Only): To open the app window on any employee's PC, press:

Ctrl

+

Shift

+

Alt

+

S

This works on any PC where the app is installed. Keep this confidential.

STEP 6

View Screenshots on Your Portal

All captured screenshots appear on your web dashboard in real-time.

1

Login to Your Portal

Go to

screen.advaitdigital.co.in

and sign in with your admin credentials.

2

Go to "Desktop Captures" Tab

This shows the latest screenshots from all employees, organized by date and employee name.

3

Click on Any Screenshot

Click to view full-size. You can see exactly what was on the employee's screen at that time.

4

Use "All Screenshots" Tab

For advanced browsing with custom pagination and date-wise search.

STEP 7

Manage Capture Settings

Control how often screenshots are taken and pause/resume monitoring.

1

Go to "Capture Settings" Tab

In the portal sidebar, click "Capture Settings".

2

Choose Capture Interval

Select how often:

Every 5 minutes

,

Every 15 minutes

, or

Every 30 minutes

.

3

Pause / Resume Monitoring

Use the Pause button to stop all screenshots. Click Resume to start again. Changes apply within

10 seconds

.

Instant Sync: Any setting change is applied to all employee PCs within **10 seconds** — no restart needed.

Device Status Indicators

Track which employees are actively being monitored.

STATUS	WHAT IT MEANS	WHAT YOU SHOULD DO
● Active	The employee's computer is online and the app is running. Screenshots are being captured.	Nothing — everything is working fine. ✓
● Disconnected	The computer has been offline for more than 15 minutes. App may be stopped or PC shut down.	Check if the PC is turned on and connected to internet. If app was deleted, reinstall it.
● Never Connected	Employee was created but the desktop app has never been installed or logged in.	Install the desktop app on the employee's computer and login with their credentials.

If an employee deletes the app: Their status changes to ● **Disconnected** after 15 minutes. You'll see this on your portal.

 QUICK REFERENCE

Important Information

Keep this handy for your team.

ITEM	DETAILS
Web Portal URL	https://screen.advaitdigital.co.in
Capture Intervals	5 minutes / 15 minutes / 30 minutes
Secret Shortcut Key	Ctrl + Shift + Alt + S (opens the hidden app window)
Auto-Start	Yes — app starts automatically when the PC boots up
Visible to Employee?	No — the app is completely invisible after first login
Settings Sync Speed	Within 10 seconds on all devices
Disconnect Alert	If no heartbeat for 15 min → shows "Disconnected" in portal

You're All Set!

ScreenAdvait is now monitoring your team's desktops.
Login to your portal anytime to review screenshots and manage settings.
